Dear General Counsel of the California Institute of Technology:

The Project On Government Oversight (POGO) is overhauling and renewing its Federal Contractor Misconduct Database ([www.pogo.org/db/index.cfm](http://www.pogo.org/db/index.cfm)), a compilation of information from public resources regarding government contractors, including the California Institute of Technology. On January 18, 2006, we sent you information regarding findings relevant to the California Institute of Technology, which I have enclosed for your reference. As of today, we have not received a response from your office.

A written response is certainly in the best interest of everyone involved. It is the best way for your company to go on record regarding this process and the instances identified; your letter will be posted in its entirety on the database. Several companies have already responded and have expressed appreciation for the opportunity to express their views. POGO would prefer to receive a response by November 30, 2006 to ensure it is included with the launch of our new database.

If you have any questions, I can be reached at (202) 347-1122. Thank you for your time and consideration.

Sincerely,

Scott Amey  
General Counsel
