

A Statement by the Wackenhut Corporation - September 24, 2007

PALM BEACH GARDENS, Fla., Sept. 24 /PRNewswire/ -- On September 24, 2007, The Wackenhut Corporation issued the following statement:

An incident involving a small number of inattentive security personnel at the Peach Bottom nuclear power plant in York County, Pennsylvania was recently brought to our attention. Wackenhut takes this matter very seriously and does not tolerate any performance that does not meet our standards. Consistent with our security protocol, we are fully cooperating with the Plant's investigation and are conducting our own, independent investigation to gather and understand the facts.

Wackenhut has and will continue to cooperate with Peach Bottom and the Nuclear Regulatory Commission in this matter. At the same time, we believe it is important to note that this incident has had no impact on the level of security and safety at Peach Bottom. Furthermore, this incident is not reflective of the quality of service Wackenhut has provided to Peach Bottom or any other client.

While we are disappointed with Exelon's decision to cancel its contract at Peach Bottom, we can state with confidence that Peach Bottom remains safe and secure. We believe this is the most important fact in this entire matter. Moving forward, Wackenhut will continue to cooperate fully and provide high quality security service as Peach Bottom transitions security in house.
